Renault MEGANE

Hatch and Wagon

"The new Megane sets a new benchmark in design for its segment...
without doubt the best car from the French manufacturer to date."

Alborz Fallah
CarAdvice.com.au

"The GT wanted to go fast, enticing with its sharp power delivery,
well-weighted steering, excellent balance and charming, refined manners."

Bruce Newton
Motoring.com.au

Overseas model shown.

Stylish design. Innovative technology.

The car that's caused such a stir at motor shows around the world has arrived in Australia. Combining French design and attention to detail with European technology, engineering and driving dynamics, Renault Megane Hatch and Wagon bring the flair and performance this segment has been waiting for.

Renault Megane Hatch and Wagon are true driver's cars that are just as happy performing your daily driving duties.

Emotion in Motion.

Renault Megane Hatch and Wagon are immediately recognisable as the latest creation of the Renault design philosophy 'Emotion in Motion'. The bold front grille, signature LED 'C' shape running lights* and wide front track give it a distinctive muscular stance.

Renault Megane's seamless profile, with its accentuated shoulders and subtly flared wheel arches, is a perfect example of how clean, uncluttered design delivers beautiful simplicity. From the rear, the elongated horizontal tail lights accentuate the surprising breadth of the car.

Overseas model shown.

Renault Megane GT.

Renault's Formula 1® experience is evident across all aspects of the Megane Hatch and Wagon GT, especially with its 4CONTROL four wheel steering.

At low speeds, 4CONTROL turns the rear wheels in the opposite direction of the front wheels. Above 80 km/h, both sets of wheels turn in the same direction. The result is unparalleled grip for optimal road holding. It's steering you can feel.

Renault Megane GT has a wider wheelbase to deliver more road grip and overall stability. Renault engineers have delivered a chassis that is perfectly balanced - a must for any performance vehicle.

To help keep you in the perfect driving position, ergonomic sport seats with Alcantara upholstery hug your body around tight corners, reducing driver body roll. And with R.S. Drive (ESC control), Multi-downshift, Launch Control and aluminium paddle shifters, you will know this is a very special vehicle, developed with the knowledge and experience of over 100 years involvement in motorsport.

Stunning inner beauty.

Make your Renault Megane Hatch or Wagon really yours. Choose from five different settings for the interior LED lighting*, the dash display, rear and door lighting to create a cabin ambiance that suits whatever mood you are in.

Then engage the BOSE® premium sound system^, settle into the supremely comfortable ergonomic front seats and your new Megane is ready to go.

As you would expect from a French car brand, the attention to detail within the cabin is very deliberate with meticulous design. The dash is sleek with a non-scratch and soft-to-touch finish. Upper door panels and the console are all presented with either supple leather or light-weight Alcantara padding and the Iron Blue inserts* bring a splash of colour throughout the cabin.

Brushed chrome highlight the air vents, gear lever and dash display. The steering wheel is wrapped in rich Nappa full grain leather* and feels as good as it looks.

Although there's little chance you'll ever let someone else drive, there is excellent rear leg and head room – plenty of room for two adults should you need it.

*Standard on the GT and GT-Line variants, not available on Life and Zen variants

^Optional in the Premium pack for GT-Line and GT variants

MULTI-SENSE

Think of MULTI-SENSE* as the conductor of an orchestra, coordinating all the wonderful technology inside Renault Megane Hatch and Wagon to work in perfect harmony. Whether you are in the mood for a sporty drive, a smooth, relaxed outing, or eco-friendly efficiency, use MULTI-SENSE to enjoy a bespoke experience for every drive.

There are up to five different profiles to choose from - Blue for Comfort, Green for Eco[^], Red for Sport, Sepia for Neutral and Purple for Personalised. While each setting is pre-adjusted for a different driving experience, you also have the option to create a custom driving profile. Adjust the engine response, transmission changes, steering effort and engine tone, as well as a suite of on-board instrument design and display combinations.

MULTI-SENSE can be tailored to be as individual as you are and represents a level of technology usually found in premium luxury vehicles.

*Standard on the GT and GT-Line variants, not available on Life and Zen variants

[^]Eco profile not available on GT variants

4CONTROL - Four wheel steering

If there is one feature that generates more excitement than any other, it's the 4CONTROL, four wheel steering system in the Renault Megane GT Hatch and Wagon. The four-wheel steering chassis is designed to allow the rear wheels to turn as well as the front. Apart from an incredibly small turning circle, it delivers phenomenal handling that will impress the most seasoned drivers. On twisting, turning roads, 4CONTROL offers dynamic, precision driving and stability.

We call it steering you can feel and it truly sets the Renault Megane GT Hatch and Wagon apart from the competition.

At speeds below 60km/h (below 80km/h in Sport mode), the rear wheels turn 2.7° in the opposite direction of the front wheels.

At higher speeds, the rear wheels turn in the same direction as the front wheels, delivering unprecedented driver enjoyment and a driver experience that is both sporty and safe.

R-LINK 2

The Renault R-LINK 2 multimedia system controls multiple functions via the large capacitive touchscreen. With two sizes, either the massive 8.7" portrait* or the standard 7" landscape screen, it is responsive, ergonomic, luminous, and as easy to use as your tablet or smart phone.

R-LINK 2 allows you to design your own personal home screens by choosing the size and position of maps, radio, your favourite contacts, and other functions. Just like your phone or computer, your Megane Hatch and Wagon's homescreen can be adjusted to prioritise what is most important to you. You can create up to six user profiles so multiple drivers can have the system pre-set to their preferences.

A true control centre, Renault R-LINK 2 also manages the MULTI-SENSE* system, the 4CONTROL system on the GT model and all the driver assistance systems including advanced emergency braking system (Inter-urban)^, lane departure warning system^, distance warning*, adaptive cruise control*, blind spot warning**, plus Easy Park Assist*.

* Standard on GT and GT-Line variants, not available on Life and Zen variants

** Standard on GT-Line variants, not available on Life, Zen and GT variants

Safety. A cornerstone of Renault cars.

Road safety has been an important part of Renault's culture for over 50 years, leading to innovations that have set the standard in automotive safety. It's based on a philosophy of building cars that protect occupants in case of an accident, but also contain an array of technologies designed to prevent them from happening in the first place. Renault Megane Hatch and Wagon are no exception.

Advanced Emergency braking assist^{*}

This system is activated between 30km/h and 140km/h and alerts the driver if there is a risk of collision with the vehicle in front. If the driver reacts insufficiently or not at all, the brakes are activated to prevent or mitigate a collision.

Easy Park Assist^{*}

Renault Megane Hatch & Wagon's parking assistance system measures the parking space with its 12 ultrasonic sensors (whether parallel, perpendicular, or angled) and defines the parking trajectory. Then it takes over the wheel and steers itself while the driver controls the speed and braking. It can also help to exit parallel parking spots.

Blind spot warning

The Renault Megane Hatch and Wagon GT-Line detects vehicles entering your blind spot. An indicator light located on each wing mirror will warn you of any potential hazards.

Proximity sensors with reversing camera

Renault Megane Hatch and Wagon look in all directions with sensors that give you an audible warning when moving or static objects are too close, as well as visual guidelines letting you know exactly how close you are to an obstacle.

Adaptive & Curtain airbags

Renault Megane Hatch and Wagon protect occupants with multi-stage, variable force deployment airbags. This variable deployment is determined by the severity of the impact and proximity of the driver and front passenger to the dash or steering wheel.

Lane departure warning^{*}

This system is activated above 70 km/h and detects the lane in front of the vehicle with a camera and warns the driver audibly if they drift into another lane.

Adaptive cruise control[^]

Easily maintain the appropriate safe following distance between you and the vehicle in front. In order to adapt your speed, the adaptive cruise control is activated between 50 km/h and 140 km/h. The system acts on the brakes when the distance is too short and on the accelerator when the road is clear again.

^{*} Standard on GT and GT-Line variants, not available on Life and Zen variants

Enhanced power.

Whether you are a Formula 1® fan or not, our long involvement in motorsport gives us the experience and expertise to produce engines that are powerful, responsive, fuel efficient, yet still low on emissions.

ENERGY TCe 205 - GT

The most powerful engine on offer is the ENERGY TCe 205, only available on the GT variant, with a 7-speed dual clutch EDC gearbox. It delivers the clean acceleration and pick-up you would expect, and when combined with sporting technology such as 4CONTROL, Launch Control, and Multi-Shift, the package as a whole is a breathtaking and exhilarating driving experience.

GT will go from a standstill to 100km/h in a swift 7.1 seconds.

ENERGY TCe 130 - Life, Zen and GT-Line

Capable of 130 hp at 5,500 rpm and 205 Nm from 2,000 rpm, the ENERGY TCe 130 engine offers you the same performance as a 2 litre atmospheric engine. Its direct injection and integrated turbocharger deliver exceptional responsiveness. It feels eager, crisp, yet is surprisingly quiet, operating with a distinctive soft-edged sound.

EDC gearbox

The EDC (Efficient Dual Clutch) automatic gearbox combines the comfort of an automatic with the responsiveness of a manual. With 7 gears, our EDC delivers flexibility, dynamism and reduced fuel consumption. With super quick, seamless gear changes, what more could you ask?

Our quality. Your peace of mind.

When you choose a Renault, you enjoy years of worry-free motoring, backed by a trusted and reliable brand.

Generous Comprehensive Warranties

Renault has been building and racing motor vehicles for more than 100 years, creating a legacy of invention, innovation and a competitive spirit that drives us to excel. The wealth of experience we've gained is reflected in the design, performance and quality of every vehicle we sell.

We're so confident that your new Renault will provide you with many years of reliable and enjoyable driving that we're backing our quality promise with a comprehensive 5 years unlimited kilometre warranty on all of our passenger vehicles.

Capped Price Standard Servicing[^]

Fantastic Renault value doesn't end once you've got your new vehicle home – you'll enjoy the benefits of lower maintenance costs for your first 3 years or up to 90,000km (whichever occurs first) behind the wheel thanks to Capped Price Servicing.

The Capped Price Service program covers the cost of all Genuine Renault parts, lubricants and labour required for standard scheduled maintenance services.

And because you're busy, Renault vehicles are designed to require servicing only once per calendar year, or every 30,000km (whichever occurs first) – not every six months like some manufacturers.

24/7 Roadside Assistance

Renault Roadside Assistance is a service Renault provides to you as a new Renault owner up to 4 years when you service your vehicle with Renault, regardless of how many kilometres you travel. You could run out of fuel, lose your car keys, or have a flat tyre near or far from your home. Just call 1800 009 008 and we'll provide the support you need. Available 24/7, 365 days per year and covers you across Australia.

Renault Specialist Technicians

Only Renault authorised dealerships have registered Factory Trained Technicians. Known globally as COTECHs, they're trained by Renault to perform all factory-recommended servicing and repair operations. This ensures your car always receives the quality attention it deserves.

COTECHs use specialised service tools and equipment to ensure your vehicle continues to provide optimum performance, safety, economy and emissions. When you combine this technical expertise with the very best Genuine Renault parts, lubricants and accessories, you can be sure your car is in the safest of hands.

Repair and Service Courtesy Cars

Renault quality extends to our customer service.

To minimise your inconvenience while your vehicle is undergoing maintenance or repairs, our authorised Renault Dealers have low cost loan vehicles ready and waiting for you. Simply book a loan vehicle in advance when you book your Renault in for service with your dealer.

Alternatively, most Renault Dealers offer a drop off service to local destinations or to the nearest public transport.

Genuine Renault Parts

Genuine Renault parts, lubricants and accessories are of the highest quality, and specifically designed for Renault vehicles. They are purpose-built to our exacting specifications, guaranteeing fit, function and performance every time. They are also covered by our 1-year unlimited kilometres warranty.

Authorised Renault Dealers keep high stock levels of commonly used Genuine Renault parts to ensure continuous availability.

Renault Dealer Network – The Benefits

Everywhere, at every stage in your car's life, the Renault Dealer network is with you, providing quality service, including:

Personalised reception and advice.

The use of only Genuine Renault parts.

The Renault 1-year parts and labour guarantee for all repairs carried out by a Renault dealership.

Equipment and tools specially designed for your Renault.

Our pricing structures are simple, clear and transparent, so you can always have your car serviced or repaired with confidence.
